

INNOVATING FOR CANADA

The Superclusters' first-of-its-kind approach is leading to the emergence of ideas and collaborative partnerships that wouldn't have otherwise materialized, helping us establish, grow, and scale Canadian companies at a faster pace.

7,000

pan-Canadian members bringing together the latest research, industry needs, start-up ambition, and government priorities to accelerate the development of innovative solutions to sell to the world

11,000

good well-paying jobs directly created by Canada's Superclusters, and on target to exceed 50,000 jobs by 2028

70,000+

people trained and mentored, developing valuable skillsets in the process

332

projects led by small and medium-sized enterprises

1,755

collaborative project partnerships

1,200+

new products, processes and/or services developed

\$769,000,000

in funds committed to Supercluster projects with over

\$1 billion

in industry matching funds

400+

projects from coast-to-coast-to-coast, valued at \$1.85 billion

Data above is for all approved projects, including those not yet publicly announced
